MEDITATION WITH ANCESTRAL INSTRUMENTS

In an atmosphere of total tranquility in the garden, listening to the chirping of the birds, lying down with their eyes closed and covered with soft textures; We will begin this meditation among various aromas (aromatherapy) that transport us to a feeling of peace. The words of the guide will cause the release of energy. Ecstasy will be generated by the rhythms, harmonies and sounds that emanate from ancestral instruments. The 5 elements will be present in these sounds to merge, until we surrender in the longed-for rest.
